Made of a mixture of bamboo fibers and other biodegradable materials, the Biotree Urn provides a more sophisticated and contemporary solution to a loved one's desire to return to earth after life. The unique design and processing method ensures healthy growth of the memorial tree.

BIOTREE: HOW IT WORKS

Add cremated remains to the base of the Biotree Urn.

Plant a sapling using the provided tree certificate or work with a local nursery to grow a tree from a seed.

Just add water. No need to add soil, and the Biotree will treat the cremated remains.

Watch a loved one become a tree. Biotree Urn may be kept inside until it begins to crack, then it is time to plant the urn.

The Biotree Urn and cremated remains are returned to nature as the tree grows.

Using the included tag, the location of the tree can be geotagged and families can create an online memorial to share with friends and family.

Frequently Asked Questions

What is the Biotree Urn made of?

The Biotree Urn is made using natural bamboo and other plant fibers, as well as natural binding agents. The center is a handmade Portuguese cork disk, with a nutrient-rich coco peat disk nested inside the cork.

Can I use a Biotree Urn with old ashes?

Yes, the Biotree Urn is designed to grow a tree irrespective of the age of the ashes.

How much cremated remains does a Biotree Urn use?

The Biotree Urn fits up to 90 cubic inches of remains. You can use less if you prefer, and the remaining remains can be stored or scattered as you like.

How long can I keep the Biotree Urn after planting a tree?

After planting a sapling or seed, the Biotree Urn itself can be kept unplanted for several weeks. This provides your family with a period of time to keep a loved one close after saying goodbye.

Can I plant a Biotree Urn in a pot?

Yes, the Biotree Urn can be planted in a pot as long as the pot is filled with nutrient-rich soil to ensure the successful and healthy growth of a tree.

How does the geotag system work?

To geotag your memorial tree, visit biotree.earth/product/registration and follow the instructions.
