we would like to offer our sympathy to all of scott's family and friends. we know it has been a hard time with the recent health problems scott was having and now knowing that he is out of pain and sadness that went along with dealing with his issues is a comfort. but it is never easy to let your loved one go on without you. please take comfort in knowing that you will be reunited again and that your friends and family are here for anything you need. although we didn't spend much time with scott, we know that he was a good man and was very loved.##imported-begin##doug and kat jager##imported-end##

Do not stand at my grave and weep.I am not there. I do not sleep.I am a thousand winds that blow.I am the diamond glints on snow.I am the sunlight on ripened grain.I am the gentle autumn rain.When you awake in the morning's hush.I am the soft uplifting rushof quiet birds in circling flight.I am the soft star that shines at night.Do not stand at my grave and cryI am not there.I did not die.--

GOODBYE MY BROTHER.No more will you be by my side,with your smile big and wide.We use to run Airboats in the Everglades, now your gone my life is a daze.I will never find another friend like you,because your my only brother,what will I do.I watched the sunrise the morning after you passed,the sun burnt through the trees,and lit up the grass.I looked to the heavens for a Godly sign,and the clouds filled with rays of beautiful sunshine. Then I knew you were on your way,and I am left here to start a new day.So goodbye my brother,you will be missed,I will look for you in the sunrise of each new days bliss. On behalf of myself, Cheri, Katie and JC, I want to extend our sympathies to the entire family. I also will say how much Scott will be missed. He had a tough road but he handled it with more courage than anyone I have ever met. He never complained, he just kept a smile and forged on. I am sure he is in a better place. One where he can find a little peace. He will be thought of often.###imported-begin##evan contorakes###imported-end##
