“ Mom was a fighter and thought she'd live to be a hundred. But the heartbreak of losing dad was too much suffering added to her health problems. She was a strong leader of this family always took care of business around the house. Sadly, dementia eventually crept in and little by little, she became frustrated and unable to do most things. God has now called 3 of our immediate family members home within a year. Pain of losing them is hard. Rest in peace mom, you are together again with dad and Shar. I am lucky to have had you all these years and I am grateful to have been with you till the last moment of your life. I would do it all over again for my family. I love you so much and will never stop missing you. Thanks for a wonderful childhood and instilling so many morals and values in my life! I love you.  
Your baby daughter, Rhonda

“ One of the most beautiful mothers a child could have. Living with her and Daddy for over a year now has been my pleasure. Caring for her and my father has enlightened my life. We grew so close to one another. Missing Mama so very much. The most wonderful thing is that I know she is dancing with Daddy in Heaven and there is no more pain or sadness. RIP my love and I'll be seeing ya. All My Love, Onewee

“ I love to remember the silliness and teasing. The times you and dad would steal the butter off of each other's knife which ultimately would lead to one of you chasing the other with a knife full of butter and one of you wearing it. Yard work often had it's entertainment as well with h dad trying to put a lizard down your back or a bee getting stuck in your perfectly coifed hair. Patrick could never resist messing it up. The magic of Christmas morning - we all carry it on to this day. The Lord knows how I wish you and dad had been able to to really enjoy your golden years- we can never know why things happen as they do but I know you and dad are together again with Shar, and I know we will all see you again. Love you and miss you- Nomi

“ I will always remember my Grandma for her great sense of humor, and how much she loved all her grandchildren and her daughters. Whether she was feeling up to par or not, she always had a smile on her face when I came to see her, and would tell me numerous stories from my childhood. She would have me laughing in the kitchen for hours, and always had the best cookies to share. There was a time in my life when we used to write letters and send them back and forth through the mail to each other. My Grandma always told me how beautiful, smart, and proud of me she was. The last time I saw her she smiled and stroked my arm, not wanting to let go. She had such a big heart, and always made sure I knew how loved I was, and how much she appreciated our visits. After my mom passed away, she would call me to check in on me and see how I was doing. She was so positive, understanding, and encouraging. I'll miss you so much Grandma.

“ Yes Meg, Grandma loved you so much. She loved and always asked about the grandkids to each of us moms. She loved the visits. We have lost so much in a short time, it's hard to comprehend. But we have so many beautiful memories of them. Our loss is Heaven's gain! Be strong and live your life to the fullest! No regrets!
